

2012 Accomplishments

Great Canadian Shoreline Cleanup, Heart Lake Road

Date: September 22, 2012

Location: Heart Lake Road

Watershed: Etobicoke Creek

Region: Peel

Municipality: Brampton

Partners: TRCA, Region of Peel, City of Brampton, Great Canadian Shoreline Cleanup, Local Residents

The TRCA worked with local residents to target the natural areas and wetlands along Heart Lake Rd. between Sandalwood Pkwy and Mayfield Rd as part of the 2012 Great Canadian Shoreline cleanup campaign. This is the third year that this site has been selected for clean-up and volunteers have removed a significant amount of garbage from the site. Residents continue to help with efforts to enhance water quality and wildlife habitat. This is a global event and Canada's largest contributor in removing harmful litter and debris from shorelines.

m ² Area Cleaned	Garbage Bags Collected	Weight lbs	Large Items	Total Volunteer Hrs
~1800 m	25	~2000	Tires, metal, construction debris	50
