

2013 Accomplishments

Upper Mimico Planting

Date: April 17, 2013

Location: Upper Mimico Creek

Watershed: Mimico Creek

Region: Peel

Municipality: Brampton

Partners: TRCA, Region of Peel, City of Brampton, Goreway Power Station, Brampton Royals Baseball Team

A group of 22 volunteers including members of the Brampton Royals Baseball Team, and staff from Goreway Power Station attended this event. The event included tree planting, a watershed clean-up and habitat structure installation activities. The volunteers planted 150 native trees and shrubs along the banks of the Mimico creek as part of an ongoing restoration project. The volunteers also removed several pounds of garbage from the surrounding natural areas and watercourses which poses a threat to water quality and wildlife. They also erected 7 bird structures throughout the area to enhance habitat for wildlife.

Positive Environmental Impacts

Vegetation Planted	# of Pieces Planted	Total Area Enhanced	Bird Box Structures	Garbage Removed	Volunteers	Volunteer Hrs
Trees	50	125	7	5 Lg Bags	22	66
Shrubs	100	150				
Total	150	275	7	~40 lbs	22	66
