

2013 Accomplishments

Heathercrest Planting

Date: April 20, 2013
Location: Heathercrest Park
Watershed: Mimico Creek
Region: Toronto
Municipality: Toronto
Partners: TRCA, City of Toronto,

Despite somewhat “wintery” conditions, a large group of 150+ community residents attended the Spring Planting event at Heathercrest Park. This area is being enhanced to reduce fragmented green space in the watershed. The group planted 75 native trees and 375 native shrubs. TRCA staff also had a furs and skulls exhibit to educate participants on wildlife in the area.

Positive Environmental Impacts

Vegetation Planted	# of Pieces Planted	Total Area Enhanced	Volunteers	Volunteer Hrs
Trees	75	190	150	450
Shrubs	375	560		
Total	450	750	150	450
