

2013 Accomplishments

Heart Lake Meadow Maintenance

Date: June 9, 2013

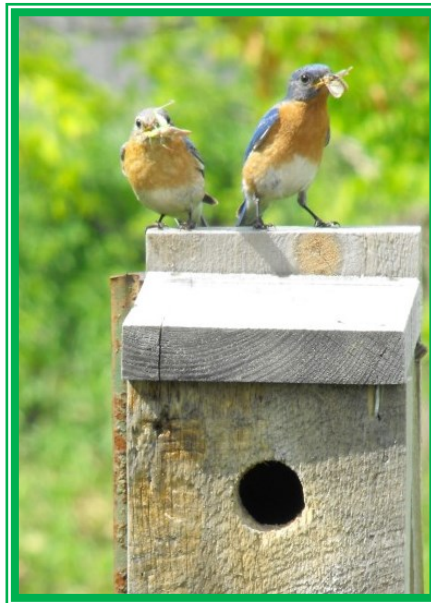

Location: Heart Lake CA

Watershed: Etobicoke Creek

Region: Peel

Municipality: Brampton

Partners: TRCA, Region of Peel, City of Brampton, Community Volunteers

A group of 5 people donned gloves to perform maintenance on Heart Lake Bowl Meadow Plots. This area has extensive invasive thistle which requires ongoing control methods. The group pulled large quantities of weeds and prepared areas to plant in-fill native wildflowers. The group will also be initiating a monitoring program on Bird Structures and bee condos' to collect data on these native species.

Positive Environmental Impacts

Vegetation Pulled	Extracted	Volunteers	Volunteer Hrs
Thistle/Weeds	200 lbs	4	16
