

2013 Accomplishments

Heart Lake, Evergreen Corporate Plant

Date: May 11, 2013

Location: Heart Lake CA

Watershed: Etobicoke Creek

Region: Peel

Municipality: Brampton

Partners: TRCA, Evergreen, Region of Peel, City of Brampton, Canon Canada

TRCA and Evergreen partnered to deliver a corporate planting event with employees from Canon Canada participated at Heart Lake CA. The group planted 130 native trees and shrubs at this new restoration site. These efforts to enhance green space provide much needed habitat for wildlife. The additional vegetation also acts to filter contaminants and pollutants from entering the nearby waterways. Participating in stewardship events of this nature allow a better understanding to the importance of green space in urban settings.

Positive Environmental Impacts

Vegetation Planted	# of Pieces Planted	Total Area Enhanced	Garbage Collected	Volunteers	Volunteer Hrs
Trees	30	75	3 bags	20	60
Shrubs	100	150			
Total	130	225	~100 lbs	20	60
