

Family Fish Day at Heart Lake CA

Date: July 4, 2015

Location: Heart Lake Conservation Area

Watershed: Etobicoke Creek

Region: Peel

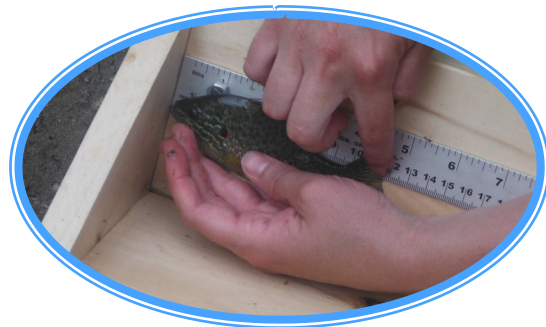

Municipality: Brampton

Partners: TRCA, Region of Peel, Ministry of Natural Resources & Forestry (MNR), Community Residents

2015 EM Accomplishments

The Annual Family Fish Day was a resounding success for 2015. Community residents came out to Heart Lake CA to learn the proper protocols of angling and enjoy a day of fishing. The group were educated by representatives of MNR on fishing regulations, how to properly set up a fishing rod with line and tackle and safe casting methods. Prizes were given for largest and smallest fish. This stewardship activity allows new Canadians and local residents the opportunity to understand fishing regulations and safely enjoy angling as an outdoor recreational activity.

Positive Environmental Impacts

Fish	# Fish Caught	Largest & Smallest	Volunteers
Rock Bass	8	200 mm & 112 mm	~ 80
Pumpkin Seed	12		
Total	20		~ 80
